

Nordic Systems AS · TRUST Review

Red-team your own proposal before deciding. · AI in Industry and Business · USN Campus Kongsberg · 14 August 2026

Team: _____

Proposal: _____

Pre-mortem: *It is six months later and this initiative has caused an operational, legal, ethical, security, or reputational failure. What happened?*

AREA	MOST IMPORTANT CONCERN	CONCRETE SAFEGUARD
T TASK + CONSEQUENCE What happens if it is wrong, unavailable, manipulated, or incomplete?		
R RIGHTS + RULES Could it affect safety, privacy, employment, equal treatment, IP, or contracts?		
U USERS + OVERSIGHT Who checks, approves, overrides, and handles complaints?		
S SOURCES, SECURITY, SUSTAINABILITY Are sources permitted, current, representative, protected, proportionate?		
T TESTING + TRANSPARENCY What is tested and logged? Who must know AI was involved?		

THREE MOST CREDIBLE FAILURE SCENARIOS · one safeguard each

1. Scenario: _____

Safeguard: _____
2. Scenario: _____

Safeguard: _____
3. Scenario: _____

Safeguard: _____

DECISION

☐ **GO** — sufficiently bounded for a limited experiment.

☐ **CONDITIONAL GO** — proceed only after the condition below is met.

☐ **NO-GO / REDESIGN** — current task, data, AI role, or consequence is unsuitable.

Largest expected benefit:

Non-negotiable safeguard / condition:

Evidence required before scaling:

Largest credible harm:

Human owner:
